Architecture and interiors shaped
through space, material and detail.

BOYO Studio is an Amsterdam-based architecture and interior design practice working across architecture, interiors and visualization.

The studio combines design experience with strong technical and visual production, and is available for both independent commissions and project-based collaborations with architecture and design practices.

Project HAUS

Kuşadası, TR

In Collaboration with Beyaz Atölye

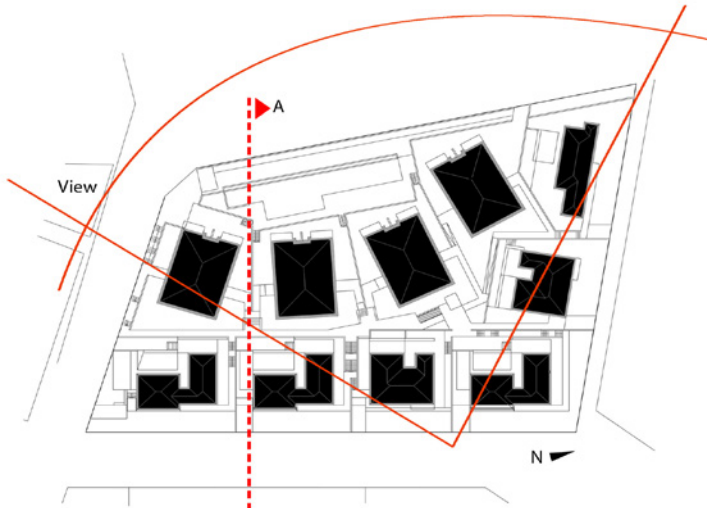

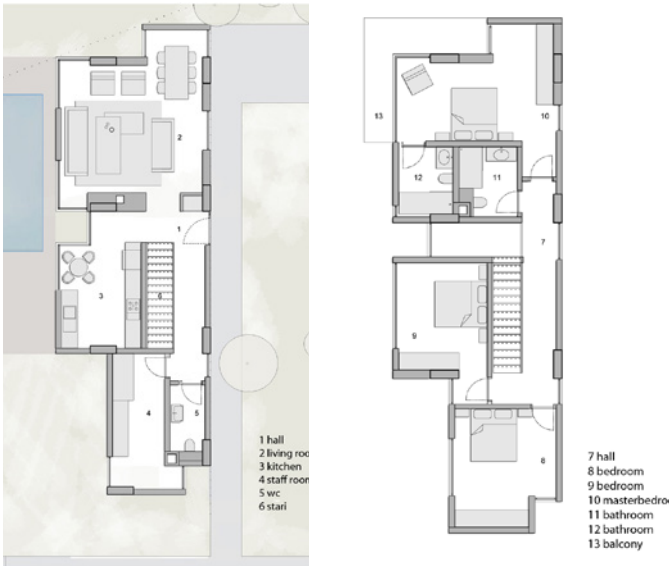

This project explores the design of seasonal housing on the Aegean coast, with a focus on simplicity, comfort, and sensitivity to the natural context.

Project GABTM_Science & Technology Center

Gaziantep, TR

In Collaboration with TeamFores Architects

Conceived as a civic gateway, the Science and Technology Center integrates landscape, structure and public space while reinterpreting the region's scientific heritage as a contemporary environment for education and innovation.
